Dear Sir,

Women do perform more than 75% of activities which are need for Family as well as Social management. The present thought of Patriarchal society more often less recognizes it. The replication is neglect in Girl's Education, Health care, difference in behaviour to son and daughter etc. Now, one threatening trend developed is female feticide.

In this crucial time, against the present social trend, your NCC volunteers of your esteemed College have started a good initiative to educate and motivate the community for their social commitment which I was privileged to witness two days back. The strategic performance and the key messages ventilated through their cultural programme was praise worthy and very much people appealing.

I extend my all thanks to those young and committed students for their tireless effort. Adding to that I also extend heartfelt thanks to their teachers who have guided and encouraged them.

With best regards.
